MOULDS TABLE LAMP COLLECTION

DESIGNER: Jan Plechac & Henry Wielgus

YEAR OF DESIGN: 2015

Moulds is a collection of suspended lights, showcasing Czech crystal at its most resilient and lively form. The series captures a specific moment when molten glass resists its expected shape and freely escapes from the mould as a random, amorphous bubble. The energizing effect of this series arises from the contrast of used materials, using the traditional craft techniques of blowing crystal glass into a beech form. The Moulds collection brings powerful emotions into an interior. The composition of varied 'overblown' shapes creates a particularly striking visual effect. Integrated LED light sources were set directly within the charred form, creating an impression that the heat and energy of the glassmaker's kiln remained inside, in historic reference to the art of Czech glassmakers.
